

TEDx Renca

x = independently organized TED event

On October 21st of 2016, we hosted the first TEDx talk organized in Renca, where we had the opportunity to witness a magical experience that will help us, and our community, to see the world through a different set of eyes, eliminating prejudice, sharing optimism and tasting the feeling.

Our auditorium held talks...

From another planet!

We addressed subjects like recycling...

Technology...

and **HAPPINESS!**

Just to plant a little seed...

with our community.

Thanks to all who joined us!
